

false_type

is_pointer_helper< T >

```
graph BT; A[is_pointer_helper< T >] --> B[false_type]; A --> B;
```

The diagram illustrates a relationship between two C++ type traits. At the bottom is a gray rectangular box containing the text `is_pointer_helper< T >`. Above it is a white rectangular box containing the text `false_type`. Two dark blue arrows originate from the top edge of the gray box and point upwards to the bottom edge of the white box, indicating that `is_pointer_helper< T >` inherits from or specializes `false_type`.
