

true\_type

is\_function< Ret(Args...)  
const volatile & >

```
graph BT; A["is_function< Ret(Args...)<br>const volatile & >"] --> B["true_type"];
```

The diagram consists of two rectangular boxes. The top box is white with a thin black border and contains the text 'true\_type'. The bottom box is gray with a thin black border and contains the text 'is\_function< Ret(Args...)<br>const volatile & >'. Two dark blue arrows originate from the top edge of the gray box and point upwards to the bottom edge of the white box, indicating a relationship or inheritance from the function type to true\_type.
