

false_type

is_member_function
_pointer_helper< T >

```
graph BT; A["is_member_function_pointer_helper< T >"] --> B["false_type"];
```

The diagram illustrates a relationship between two C++ type traits. At the bottom is a gray rectangular box containing the text 'is_member_function_pointer_helper< T >'. At the top is a white rectangular box with a gray border containing the text 'false_type'. Two dark blue arrows originate from the top edge of the gray box and point upwards to the bottom edge of the white box, indicating that 'is_member_function_pointer_helper' inherits from or specializes 'false_type'.
