

true_type

is_function< Ret(Args...)
const & >

```
graph BT; A["is_function< Ret(Args...)<br>const & >"] --> B["true_type"];
```

The diagram illustrates a relationship between two C++ type traits. A light gray box at the top contains the text 'true_type'. Below it, a darker gray box contains the text 'is_function< Ret(Args...)
const & >'. Two dark blue arrows originate from the top edge of the bottom box and point upwards to the bottom edge of the top box, indicating that 'is_function' is a specialization or base for 'true_type'.
